PERSONAL SUMMARY

I am passionate about technology and coding, with a strong interest in Python, Data Science, FastAPI, SQL, HTML, CSS, Git, and Streamlit. I enjoy learning new tools and techniques to build software and data applications that solve real-world problems and improve processes. I take pride in writing clean, efficient code and creating user-friendly solutions that add value.

I am a motivated self-learner who adapts quickly to new challenges and environments. Collaboration and communication are important to me, and I work well within teams to achieve common goals. I'm eager to contribute my skills and grow continuously by taking on roles in software development, data science, or IT where I can develop meaningful projects and make an impact.

SKILLS

- **Programming Languages:** Python, SQL, HTML, CSS
- **Data Science:** Data analysis, visualization, machine learning basics
- **Version Control:** Git, GitHub
- **Frameworks & Tools:** FastAPI, Streamlit, Git
- **Database Management:** SQL querying and optimization
- **Web Development:** Front-end basics HTML, CSS, Fast API

EDUCATION

BACHELOR LEVEL - BSc (Hons) Computing

THE BRITISH COLLEGE // January 2023 to Current

I am currently enrolled in a BSc (Hons) Computing program at The British College, immersing myself in various aspects of computer science. My keen interest lies in software development and exploring artificial intelligence. I'm enthusiastic about applying my learnings to practical projects and contributing to the dynamic field of computing.

HIGHER SECONDARY EDUCATION - Biology Science

BRIGHT FUTURE SECONDARY SCHOOL // KATHMANDU, NAIKAP // January 2020 to January 2022

GPA: 3.26

SECONDARY EDUCATION

BRIGHT FUTURE SECONDARY SCHOOL // January 2007 to January 2020

GPA: 3.30
