## Minendra Bhandari

Phone: 9861719472

Email: minendra2062@gmail.com

GitHub: <https://github.com/minendraa>

Address: Kamalbinayak, Bhaktapur, Nepal

### Career Objective

Pursuing a bachelor's degree in Computing at The British College, currently learning Artificial Intelligence and Machine Learning at TechAxis. Passionate about working in the IT sector to apply skills in solving real-world problems and contributing to innovative technology solutions.

### Education

Bachelor's in Computing

The British College / Leeds Beckett University

Expected Graduation: 2027

+2 (Higher Secondary)

Kathmandu World School

GPA: 3.21

Year Completed: 2022

Class 10

Aksharaa School, Kathmandu

GPA: 3.65

Year Completed: 2020

### Skills

- Programming Languages & Frameworks: Python, Java, Django, FastAPI, Streamlit
- Technologies: Machine Learning (ML)

# Curriculum Vitae

## Projects / Portfolio

Here are some highlighted projects:

### 1. Predictive Data Modeling with Python

Used machine learning algorithms to predict house prices based on historical data with Streamlit.

Technologies: Python, Scikit-learn, Pandas, Streamlit

### 2. Image Prediction Cat and Dog Classifier

Classified images to identify whether they are of cats or dogs using convolutional neural networks.

Technologies: TensorFlow, Keras, CNN

### 3. Django Library Management System

Developed a web app for managing books, users, and transactions in a library using Django.

Technologies: Python, Django, HTML, CSS

### 4. Salary Prediction System (Streamlit)

Built a salary predictor based on user features using a pre-trained ML model and Streamlit interface.

Technologies: Python, Streamlit, Joblib

### 5. Email Sending API with FastAPI

Created an API to send emails using Gmail SMTP with FastAPI and Pydantic validation.

Technologies: Python, FastAPI, SMTP
